Infant and Young Child Feeding in Emergencies Toolkit

SEPT. 23, 2025, VISIT LINK FOR DETAILS.

For Public Health

AT A GLANCE

Natural disasters can make it difficult for parents or caregivers to feed their infants and young children safely and appropriately. This toolkit can be used to help ensure that children are fed safely when disaster strikes.

## CDC's IYCF-E Toolkit

CDC's Infant and Young Child Feeding in Emergencies (IYCF-E) toolkit provides resources for states, communities, programs, emergency preparedness and response personnel, families, and the public. The toolkit can be used before, during, and after emergencies and disasters such

as hurricanes, floods, wildfires, earthquakes, and tornados.

The toolkit contains:

- Information, resources, and tools about supporting families and providing optimal nutrition to infants and young children during emergencies.
- Printable handouts to be used with or given to families.
- Information for families and caregivers about being prepared to feed infants and young children during emergencies.
- Information for the public about donations in response to emergencies.

## What's included
